

MY MINI LIFE

Custom DIY Miniature Kits

Bring your favorite spaces to life in miniature! My Mini Life creates customized DIY miniature room kits based on the images you submit. Whether it's your cozy living room, a dream office, or a special memory, we turn your personal spaces into beautifully detailed, handcrafted miniatures that you can assemble and cherish.

At My Mini Life, we believe that every space tells a story, and we're here to help you recreate those cherished moments on a whole new scale. Our company specializes in transforming your favorite rooms into custom DIY miniature kits, providing a unique and personal way to preserve the spaces that mean the most to you.

Whether it's the living room where family gathers, the cozy nook where you relax, or the café corner where you met your best friend, simply submit a photo of your chosen space, and we'll meticulously craft a highly detailed miniature replica. Each kit comes with everything you need to assemble a perfect, tiny version of the room—right down to the smallest details that make your space unique. Our miniature kits aren't just about creating decor; they're about preserving memories, expressing creativity, and giving people a chance to build something meaningful with their hands.

Rediscover the magic of your favorite spaces with My Mini Life—where every tiny detail brings your memories to life.

PERSONAS

Timothy Banks

Age: 45

Gender: Male

Timothy is a beginner in the world of DIY. He enjoys hands-on activities and uses crafting and DIY projects as a way to bond with his kids and create memorable experiences with them. Timothy uses his tablet to access My Mini Life and submits photos of places his children love for the DIY kit he wants to create. He then builds them with his kids as a fun activity for them during family weekends. He values the thoroughness and quality of the kits, but is sometimes concerned about the complexity, as he does not want the craft to be frustrating or overwhelming for his children.

Lily Thompson

Age: 21

Gender: Female

Lily is a college student who loves DIY and crafting projects. DIY projects have been her hobby for a few years as they are a fun way for her to express her creativity and unwind from her studies. Recently, her parents had decided to sell her childhood home, which she was a little upset about as she holds so many precious memories there. She discovered My Mini Life on her laptop and decided to submit images of her room so that she can have a more tangible memory of it. She really appreciated the attention to detail in the DIY kit and thought it was a perfect recreation of her childhood room.

Emma Rodriguez

Age: 34

Gender: Female

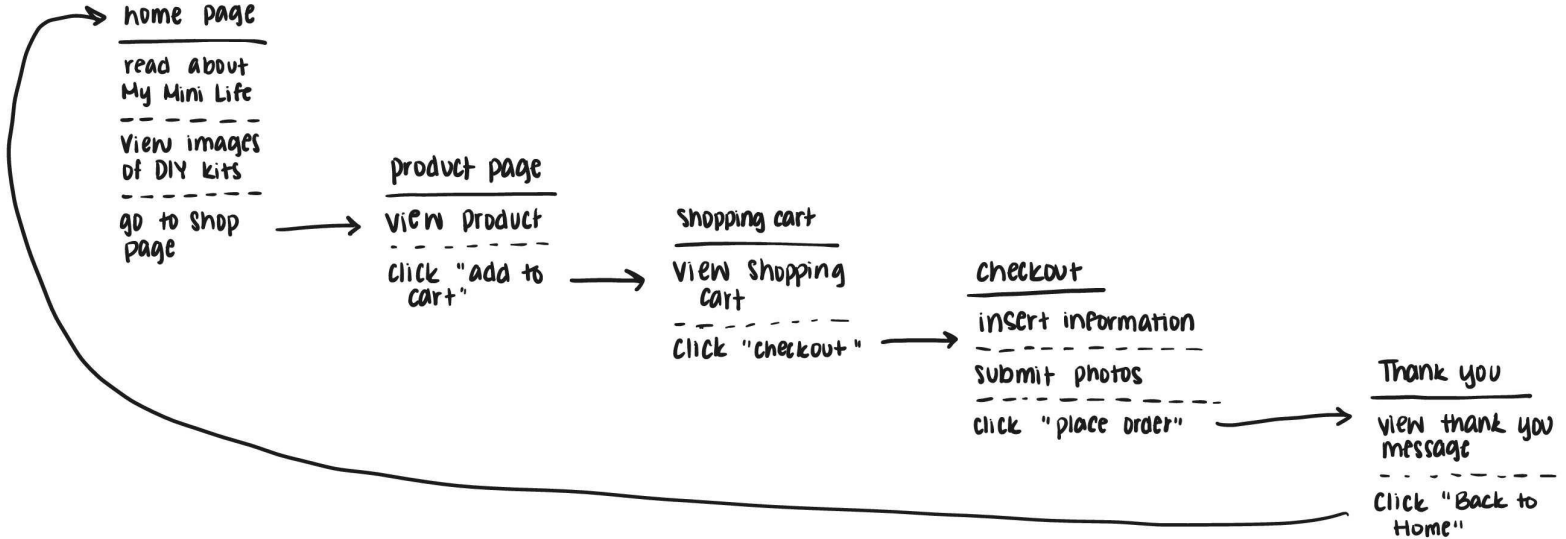

Emma is a collector of miniatures and has been involved in various forms of crafting and model building for many years. She has purchased and built numerous miniature kits and really enjoys the little details and different scenes she can create. She wanted something a little different than the ones she has already built and during her search, she discovered My Mini Life. She thought it was very unique that she could customize her own kit, so she submitted some photos and built her kit. She really values the intricacy and high-quality materials used in the kits, but she wonders just how complex these kits can get.
